

The Moonlight collection features this stunning 12-light chandelier, which creates an ethereal glow reminiscent of a night sky. Each glass globe showcases a beautiful ombre effect, transitioning from a solid white top to a moon-textured clear bottom. These artistic spheres are elegantly suspended from a plated satin nickel frame, providing a clean and contemporary contrast to the organic glass. This sophisticated fixture serves as a brilliant focal point, perfectly blending modern metallic finishes with unique, artisanal textures. Great for a kitchen or dining room area.
