

The Lumina collection features this elegant single LED pendant, an artisanal lighting piece designed to bring natural beauty to any interior. The fixture showcases two offset linear lenses crafted from authentic alabaster stone, with each piece displaying unique organic veining that creates a soft, warm glow. These stunning stone elements are suspended from a minimalist rich forged bronze frame, providing a sophisticated contrast between the light stone and deep metallic finish. For complete environmental control, this model is 3CCT enabled, allowing you to adjust the color temperature to perfectly highlight the natural textures of the alabaster within your space. Great for an island or bar area.
