

The Lumina collection features this magnificent LED large foyer chandelier, meticulously crafted to serve as a grand centerpiece for high-ceiling entryways. The fixture showcases a tiered arrangement of linear lenses made from authentic alabaster stone, with each piece displaying unique natural veining that creates a soft, organic glow. These elegant stone elements are suspended at varying heights from a large circular canopy finished in rich forged bronze, offering a warm and artisanal aesthetic. Designed for maximum versatility, this model is LED integrated and 3CCT enabled, allowing you to adjust the color temperature to perfectly highlight the natural beauty of the alabaster within your space.
