

The Lumina collection presents this breathtaking LED foyer chandelier, designed to be a grand focal point for high-ceiling entryways. The fixture features multiple lenses crafted from authentic alabaster stone, each offering unique natural veining that beautifully diffuses the integrated light. These elegant stone elements are suspended from a multi-port canopy with a rich forged bronze finish, providing a warm and artisanal aesthetic. For complete environmental control, this model is 3CCT enabled, allowing you to select the ideal color temperature to highlight the natural beauty of the alabaster.
