

Part of the Juna collection by designer Steven Sabados of S&C, this sophisticated single pendant features a column of natural travertine that provides a rich, organic texture. The fixture's plated brass metalwork adds a warm, refined touch that beautifully complements the stone elements. At its core, a white inner glass globe is elegantly encased within a tea stain outer glass shade, creating a soft and multi-dimensional lighting effect. This design thoughtfully blends diverse materials and warm tones to serve as a luxurious focal point in any modern interior.
