NOTES: _____ FIXTURE SCHEDULE: _____

Slim Floods (200-300W) Additional wattages available on separate sheet

200W
Slipfitter Mount

300W
Yoke Mount

Product Description:

The MaxLite Slim Flood Light family delivers high performance in a small and price-effective package. All models are CCT and wattage selectable. Choose between a Yoke or Slipfitter mount. A 7-pin NEMA twist lock receptacle with shorting cap is included standard. In addition there is a control base which allows for field installed controls.

Features:

- Wattage and CCT selectable
- Medium and Wide lenses available

Installation:

- Models available with either a knuckle slipfitter or yoke mount

Construction:

- Die cast aluminum housing with corrosion resistant powder coat paint
- Shatter resistant tempered glass lens

Controls:

- 7-pin twist lock receptacle with shorting cap included
- Control base for field installable controls included
