## Specification

|                 |                                                                    |
|-----------------|--------------------------------------------------------------------|
| Product Name :  | LED Area light                                                     |
| Model NO. :     | NX-ARS8-150W-3CCT-DV / NX-ARS8-300W-3CCT-DV                        |
| Specification : | AC120-347V; 50/60Hz ;<br>150W-100W-70W / 300W-240W-200W            |
| Working Temp :  | -40°F-113°F                                                        |
| Power Factor :  | 0.9                                                                |
| CRI(ra) :       | >70                                                                |
| Color :         | Brown                                                              |
| Light Source :  | SMD2835 Chip                                                       |
| Lumen :         | 150LM/W                                                            |
| Efficacy :      | 22500Lumen(Max) / 45000Lumen(Max)                                  |
| Life Time :     | 50000 hrs                                                          |
| Beam Angle :    | T3                                                                 |
| Product Size :  | 9.06"x3.09"x14.61" / 12.40"x3.09"x16.66"                           |
| IP :            | IP65                                                               |
| Application :   | parking lots, walkways, roadways, campuses and other public areas. |
| Warranty :      | 5 years                                                            |
| Standard :      | UL, DLC                                                            |
| Dimmable :      | 0-10V dimming                                                      |
| Color Temp :    | 3000K-4000K-5000K Changeable                                       |

**NEXLEDS®**

NEXLEDS LTD

## Feature:

1. High luminous efficiency and long working life.
2. High efficiency LED Driver, the wide range input voltage AC120-347V.
3. Die-cast aluminum cooling design, high quality and better cooling for LED  $T_j < 85^\circ \text{C}$ .
4. Excellent optics design, greatly improve the light utilization and evenness.
5. Motion sensor control available (Optional)

## Dimension:

## ACCESSORIES MOUNTING BRACKETS (SOLD SEPARATELY):

TYPE A  
(Slip-fitter)

TYPE F  
(slip-fitter+arm mounted)

TYPE D  
(Trunnion)

TYPE E  
(Yoke)

House shield

PIR Sensor

Microwave Motion  
Sensor

RC  
(Remote Controller)

## Applications:
